SWAMI VIVEKANAND SUBHARTI UNIVERSITY

(Established under U.P. Govt. Act no. 29 of 2008 and approved under section 2(f) of UGC Act 1956)

The following agenda items were discussed in the meeting:

<b>Agenda 1.</b>	To consider the proposal for the adoption of the NCAHP-compliant competency-based curriculum and ordinance for the <b>Bachelor of Medical Radiology and Imaging Technology (BMRIT)</b> programme beginning with the <b>academic session 2026-27</b> .
<b>Discussion</b>	The Chairperson briefed the members on the National Commission for Allied and Healthcare Professions (NCAHP) Act, 2021, which mandates a unified national standard for allied healthcare education. The committee reviewed the BMRIT curriculum notified by NCAHP, noting its shift from purely theoretical learning to a <b>competency-based approach</b> focusing on clinical care, communication, and professional ethics.
<b>Resolution</b>	It was <b>unanimously resolved</b> that the proposal for the adoption of the NCAHP-compliant competency-based curriculum and the corresponding ordinance for the <b>Bachelor of Medical Radiology and Imaging Technology (BMRIT)</b> programme be approved for implementation effective from the <b>academic session 2026-27</b> (detailed in the attached <b>Annexure-1a &amp; 1b</b> ).
<b>Agenda 2.</b>	To consider the proposal for the adoption of the NCAHP-compliant competency-based curriculum and ordinance for the <b>Master of Medical Radiology and Imaging Technology (MMRIT)</b> programme beginning with the <b>academic session 2026-27</b> .
<b>Discussion</b>	The Chairperson informed the board that the National Commission for Allied and Healthcare Professions (NCAHP) has notified standard curricula for postgraduate levels, which must be mandatorily adopted by all universities starting from the <b>2026-27 session</b> . Members discussed the standardized entry criteria for MMRIT. Eligibility now typically requires a Bachelor's degree in Medical Radiology and Imaging Technology (BMRIT) or equivalent from a recognized institution with a minimum of 50-60% aggregate marks. The board reviewed the MMRIT curriculum's focus on <b>advanced clinical competencies</b> , including specialised imaging (CT, MRI, Interventional Radiology), radiation safety, and research methodology.
<b>Resolution</b>	It was <b>unanimously resolved</b> that the proposal to adopt the NCAHP-compliant competency-based curriculum and the revised ordinance for the <b>Master of Medical Radiology and Imaging Technology (MMRIT)</b> be approved for implementation starting from the <b>academic session 2026-27</b> (detailed in the attached <b>Annexure-2a &amp; 2b</b> ). Further <b>resolved</b> that the Department shall align its evaluation system with the minimum educational standards prescribed by the Commission, emphasizing practical application and clinical care excellence. The University's admission notification for 2026-27 shall explicitly include the mandatory entrance examination and NCAHP-defined eligibility criteria.

<b>Agenda 3.</b>	To consider the proposal for updating the nomenclature of the <b>Ph.D. in Medical Imaging Technology</b> to <b>Ph.D. in Medical Radiology and Imaging Technology</b> , effective from the <b>academic session 2026-27</b> , in accordance with NCAHP standardization requirements.
<b>Discussion</b>	<p>The Chairperson highlighted that the National Commission for Allied and Healthcare Professions (NCAHP) Act aims to standardize designations across India. The proposed change ensures that the PhD title matches the undergraduate (BMRIT) and postgraduate (MMRIT) nomenclature.</p> <p>All BOS members agreed upon that the updated nomenclature, <b>Medical Radiology and Imaging Technology</b>, better reflects the comprehensive scope of the field as defined in the NCAHP Gazette.</p> <p>It was clarified that students currently enrolled in the "Ph.D. in Medical Imaging Technology" should be given the option to migrate to the new nomenclature or complete under the old title, while all fresh admissions from <b>2026-27</b> will fall under the new name.</p>
<b>Resolution</b>	It was <b>unanimously resolved</b> that the proposal to update the nomenclature of the doctoral programme from ' <b>Ph.D. in Medical Imaging Technology</b> ' to ' <b>Ph.D. in Medical Radiology and Imaging Technology</b> ' be approved, effective from the <b>academic session 2026-27</b> , in strict accordance with NCAHP standardization requirements.
